ANNUAL INDEX OF AUTHORS

Vols. 21, 22 January–December 1980 Russian Toms 250–255

Abdurasulov, H. See Sarymsakov, T. A.

Abramov, Ju. S. *Duality in extremal problems generated by spectral problems for operator pencils* 22 732

Agabekov, R. I. *On a boundary-value problem for a three-dimensional analog of Bicadze's system* 21 704

Ahiev, S. S. *Representations of the solutions of some linear operator equations* ... 21 555

Aĭzenberg, L. A., Bolotov, V. A. and Cih, A. K. *On the solution of systems of nonlinear algebraic equations using the multidimensional logarithmic residue. On the solvability in radicals* 21 645

Akivis, M. A. *Webs and almost-Grassmannian structures* 21 707

Al′ber, Ja. I. and Šil′man, S. V. *On methods of stochastic approximation* 22 660

Aleškjavičene, A. K. *On the probabilities of large deviations for the maximum of the modulus of sums of independent random variables* 21 710

Aliev, R. G. *On the existence and stability of solutions of an equation with retarded argument in Hilbert space* 21 347

Alimov, S. A. *On a boundary value problem* 21 850

On a boundary value problem for an elliptic operator 22 51

Andreev, A. E. *Some questions concerning a pattern recognition test* 22 737

Anikonov, Ju. E. *An inverse kinematic problem of seismology and some questions of stellar dynamics* 21 649

Anisovič, V. V., Krjukov, B. I. and Madorskiĭ, V. M. *On an approach to the solution of optimal control problems* 21 404

Antonec, M. A. and Cvetkov, A. A. *Projective limits of Borel measures and A. G. Sigalov's theorem on the representation of an algebra of random variables* 21 852

Arhangel′skiĭ, A. V. *The star method, new classes of spaces and countable compactness* 21 550

The principle of τ-approximation and a test for equality of dimension of compact Hausdorff spaces 21 805

Arhipov, G. I., Karacuba, A. A. and Čubarikov, V. N. *On a system of Diophantine equations* 21 715

Uniform estimates of multiple trigonometric sums 21 904

Azizov, T. Ja. *On completeness and the basis property of the eigenvectors and associated vectors of J-selfadjoint operators of class* $\mathcal{H}(H)$ 22 193

Bahtin, A. K. *On the coefficients of functions of class S* 22 480

Bandlov, I. *Factorization theorems and "strong" sequences in bicompacta* 22 196

Batuhtin, V. D. and Maĭboroda, L. A. *On a formalization of extremal problems*... 21 1

Bebov, Ju. Ja. and Janenko, N. N. *On a class of nonlocal nonlinear differential equations in Banach space*... 21 907

Belabbasi, Ju. See Sadovničiĭ, V. A.

Beljaev, Ju. K. and Mel'kov, A. N. *On sampling control by a qualitative test with varying probabilities of classification errors*... 22 325

Beljankov, A. Ja. See Rjaben'kii, V. S.

Belopol'skaja, Ja. I. and Daleckiĭ, Ju. L. *Markov processes connected with nonlinear parabolic systems*... 21 99

Bening, V. E. *An asymptotic expansion for the distribution of a statistic admitting a stochastic decomposition depending on a linear combination of order statistics*... 21 287

An asymptotic expansion for the distribution of a statistic admitting a stochastic decomposition depending on a linear combination of order statistics, for close alternatives... 21 351

Berežnoĭ, E. I. *Approximation spaces and interpolation*... 22 800

Berikašvili, N. A. *Steenrod-Sitnikov homology theory on the category of compact spaces*... 22 544

Berkolaĭko, M. Z. *Imbedding theorems for generalized Besov and Hölder spaces*... 21 446

Berman, V. S. and Ševcova, V. M. *On a model system of two reaction-diffusion equations*... 21 753

Bezuglyĭ, S. I. and Golodec, V. Ja. *Groups of transformations of a measure space and outer conjugacy invariants for automorphisms from normalizers of full groups of type* III... 22 279

Bicadze, A. V. *On exact solutions of a version of the gravitational field equations* 22 53

Blošanskaja, S. K. *On the basis property of the system of eigenfunctions and associated functions of a nonselfadjoint differential operator*... 21 653

Bobylev, N. A. *On a problem of Ulam*... 22 804

Bočarov, A. V. *On the Spencer cohomology of affine algebraic varieties*... 21 912

Boglaev, Ju. P. *Singularly perturbed linear equations in spaces of summable functions*... 21 6

Bogovskiĭ, M. E. *On the L_p-theory of the Navier-Stokes system for unbounded domains with noncompact boundaries*... 22 809

Bolotov, A. A. *On the problems of convergence and expressibility for homogeneous structures with inputs and outputs*... 22 284

Bolotov, V. A. See Aĭzenberg, L. A.

Borovskih, Ju. V. and Koroljuk, V. S. *Additive problems of analytic number theory and the asymptotics of distributions of rank statistics*... 21 451

Braverman, M. Š. and Semenov, E. M. *Characteristic properties of L_p-spaces*... 22 666

Bubnov, B. A. *The Cauchy problem for the Korteweg-de Vries equation*... 21 502

Buevič, V. A. *On τ-completeness in the class of automata mappings*... 21 856

Buhgeim, A. L. *The inverse scattering problem in the Kirchhoff approximation*..... 22 548
Bulinskiĭ, A. V. *Linear estimators of sums of random variables*..... 22 741
Burdakov, O. P. *Some globally convergent modifications of Newton's method for solving systems of nonlinear equations*..... 22 376
Bykov, A. A. *A stable numerical method of solving boundary value problems for systems of linear ordinary differential equations*..... 21 559
Čečkin, A. V. *Multiparametric regularization of ill-posed problems*..... 21 843
Čerkasov, I. D. *Transformation of diffusion equations by Kolmogorov's method*... 21 175
Černikov, N. S. *Infinite groups that are products of nilpotent subgroups*..... 21 701
Some factorization theorems for infinite groups..... 22 729
Černous'ko, F. L. *Problems of searching for a moving object*..... 21 339
Guaranteed estimates of undetermined quantities by means of ellipsoids..... 21 396
Černousov, V. I. See Platonov, V. P.
Čigogidze, A. Č. *On perfectly κ-normal spaces*..... 21 95
Cih, A. K. See Aĭzenberg, L. A.
Čubarikov, V. N. See Arhipov, G. I.
Čučaev, I. I. See Geĭler, V. A.
Curkov, V. I. *An iterative decomposition method for extremal problems*..... 21 90
Iterative decomposition of optimization problems with partial differential equations..... 22 726
Cvetkov, A. A. See Antonec, M. A.
Dačev, G. D. *On some boundary value problems for a class of equations of mixed type*..... 21 240
Daleckiĭ, Ju. L. See Belopol'skaja, Ja. I.
Daniljuk, G. I. and Skrypnik, I. V. *On partial regularity of generalized solutions of quasilinear parabolic systems*..... 21 195
Dedik, P. E. *Almost periodic pseudodifferential operators with multiple symbols* 21 244
Demidenko, G. V. See Uspenskiĭ, S. V.
Dem'janov, V. F. and Rubinov, A. M. *On quasidifferentiable functionals*..... 21 14
Denisov, V. N. *On a necessary condition for uniform stabilization of the solution of the Cauchy problem for the heat equation*..... 22 825
Didenko, V. D. *Approximate solution of systems of singular integral equations in subspaces of continuous functions*..... 22 575
Dĭskant, G. P. *On functions given on complete systems of probability measures*... 21 729
Dmitriev, M. G. See Vasil'eva, A. B.
Dmitrovskiĭ, V. A. *A boundedness condition and estimates of the distribution of the maximum of random fields on arbitrary sets*..... 22 59
Doronin, V. G. and Ligun, A. A. *On the exact solution of some extremal problems on classes of functions determined by an integral moduli of continuity* 21 354
Dragalin, A. G. *New forms of realizability and Markov's rule*..... 21 461

Dranišnikov, A. N. *On zero-dimensional preimages of Dugundji spaces* 22 297
Dubinskiĭ, Ju. A. *Limits of monotone sequences of Banach spaces. Applications* 21 465
Dubrovin, B. A. *On S. P. Novikov's conjecture in the theory of θ-functions and nonlinear equations of Korteweg-de Vries and Kadomcev-Petviasvili type* 21 469
Dubrovin, B. A. and Novikov, S. P. *Ground states in a periodic field Magnetic Bloch functions and vector bundles* 22 240
Dyn'kin, E. M. *On the smoothness of integrals of Cauchy type* 21 199
Džafarov, A. S. *Some classes of differentiable functions* 22 498
Džiškariani, A. V. *On the convergence of the residual in the finite element method* 22 503
Džrbašjan, A. M. *Generalization of the formulas of R. and F. Nevanlinna and of Carleman* 21 248
Džrbašjan, M. M. and Zaharjan, V. S. *On the coefficients of the expansion of meromorphic functions in a generalized Maclaurin series* 22 746
Džumadil'daev, A. S. *Deformations of the general Lie algebra of Cartan type* 21 605
Džuraev, A. *On multidimensional systems of second order partial differential equations of composite type* 21 122
Some problems for systems of first order partial differential equations of composite type in three-dimensional space 21 722
The formulation of well-posed boundary value problems for some nonclassical systems 22 152
Ėdel'steĭn, S. L. *Estimates of quasipolynomials and rapidly converging methods of solving elliptic problems in domains with corners* 21 38
Estimates for powerlike quasipolynomials of the type of A. A. Markov's and S. M. Nikol'skiĭ's inequalities 21 497
Egoryčev, G. P. *New formulas for a permanent* 22 434
Eleev, V. A. *The generalized Tricomi problem for a mixed hyperbolic-parabolic equation with simultaneous degeneration of type and order* 22 158
Eršov, Ju. L. *Regularly closed fields* 21 510
Multiply valued fields 22 63
Evstigneev, I. V. *Homogeneous convex models in the theory of controlled random processes* 22 108
Fadeev, S. I. *On a variant of the differential sweep method* 21 436
Fage, D. M. *Approximate solution of a nonlinear problem with constraint for a two-dimensional elliptic equation* 22 722
Falin, A. I. See Hapaev, M. M.
Fam, Ki An'. *On an approximation method for solving quasilinear operator equations* 21 75
Favorin, V. M. *On the behavior as $t \longrightarrow \infty$ of the solution of the second mixed problem for the three-dimensional wave equation in a domain that is cylindrical with respect to the space variables* 21 956

Fedorčuk, V. V. *Probability measures and absolute retracts* 22 849

Fedorov, A. V., Fomin, V. M. and Janenko, N. N. *A differential analyzer for discontinuities of solutions of nonhomogeneous hyperbolic equations* 22 416

Fedorov, S. A. *On an extremal property of spheres in Hamming spaces* 22 622

Fedotov, A. G. *Williams solenoids and their realization in two-dimensional dynamical systems* 21 835

Feizullaev, R. B. *Ternary semigroups of locally homeomorphic mappings* 21 885

On an algebra of continuous linear mappings 22 223

Finogenko, I. A. See Tolstonogov, A. A.

Firsov, A. N. *Weakly compact sets and fixed points of nonexpansive mappings in a Banach space* 22 422

Fomenko, A. T. (see also Trofimov, V. V.)

A universal lower bound on the rate of growth of globally minimal solutions 21 441

Group symplectic structures on homogeneous spaces 22 226

Fomin, V. M. See Fedorov, A. V., and Ruev, G. A.

Fong, Vu Kuok. *On the spectral theory of scalar operators in Banach spaces* 22 487

Frolov, K. K. *An upper estimate of the discrepancy in the L_p-metric, $\alpha \leqslant p < \infty$* 21 840

Fursikov, A. V. *On some control problems and results concerning the unique solvability of a mixed boundary value problem for the three-dimensional Navier-Stokes and Euler systems* 21 889

Gabov, S. A. *On completeness and basicity of the system of eigenfunctions of a problem arising in the theory of tidal oscillations* 21 183

On the spectrum of a problem of S. L. Sobolev 22 104

The spectrum and bases of eigenfunctions of a problem on acoustic oscillations of a rotating liquid 22 425

Gadžiev, A. D. *On a connection between the properties of the symbol and the characteristic of a multidimensional singular integral operator in L_p-spaces* ... 21 113

Gafurov, M. U. *On the existence of moments of the number of jumps, and last exit time, of sample sums over a curvilinear boundary* 22 1

On the first exit time of a multidimensional random walk from expanding sets 22 492

Gaĭcgori, V. G. and Pervozvanskiĭ, A. A. *On the optimization of weakly controlled stochastic systems* 21 408

Galahov, M. A. and Gusjatnikov, P. B. *A one-dimensional nonisothermal problem of contact hydrodynamics* 21 563
